TEST SCENARIOS FOR CANCEL ORDERS

Scenario ID	Scenario Name	Scenario Description(BDD Format)	Preconditions	Expected Outcome
TS_01	Verify successful order cancellation	Given the customer has placed an order that has not yet been shipped When the customer selects 'Cancel Order', chooses a reason, and confirms the request Then the application should cancel the order successfully And update the order status to 'Order Cancelled'	Customer is logged in and has an active order not yet shipped	Order is cancelled successfully and status updates to 'Order Cancelled'
TS_02	Verify refund initiation for prepaid orders	Given the customer paid online using UPI, credit/debit card, or net banking When the order is cancelled successfully Then the application should initiate the refund And display the refund status and expected refund timeline	Customer has a prepaid order eligible for cancellation	Refund is initiated automatically and refund status/timeline is displayed
TS_03	Verify cancellation restriction for shipped/delivered orders	Given the order has already been shipped or delivered When the customer attempts to cancel the order Then the application should display 'This order cannot be cancelled because it has already been shipped.'	Order status is 'Shipped' or 'Delivered'	Appropriate message is displayed: 'This order cannot be cancelled because it has already been shipped'
TS_04	Verify cancellation confirmation notification	Given the customer confirms the cancellation request When the cancellation is processed Then the customer should receive a confirmation through email, SMS, or an in-app notification	Customer has confirmed a cancellation request	Confirmation is sent via email, SMS, or in-app notification
TS_05	Verify cancelled order details in My Orders	Given the customer has cancelled an order When the customer opens 'My Orders' Then the application should display the Order ID And display the Cancelled status And display the cancellation date and time And display the cancellation reason And display the refund status (if applicable)	Customer has at least one cancelled order	My Orders displays Order ID, Cancelled status, cancellation date/time, reason, and refund status (if applicable)
