Sr.No.	GUI Description	Actual Value	Expected Value	Status/Remarks	Screenshots
1	Testing the size, position, width, and height of the elements on the Shaadi.com homepage (search bar, CTA buttons, banners).	All elements were properly sized and positioned with no overlap, misalignment, or clipping observed.	Elements should be properly sized and positioned without overlap, misalignment, or cut-off on standard screen resolutions.	Passed	
2	Testing of the error messages displayed during registration (e.g., invalid email, invalid mobile number, empty mandatory fields).	Appropriate validation messages were displayed correctly for all invalid and empty inputs.	Clear, accurate, and user-friendly error messages should be displayed next to the relevant field.	Passed	
3	Testing the different sections of the screen (Header, Navigation Menu, Search Filters, Profile Listings, Footer).	All page sections loaded correctly and were clearly separated without layout issues.	All sections should be clearly demarcated, load correctly, and be free of layout issues.	Passed	
4	Testing of the font used across the site (labels, headings, profile details) to check whether it is readable or not.	Fonts were consistent, readable, and displayed correctly across the application.	Font should be legible, consistent in style/size, and easy to read across all pages.	Passed	
5	Testing the screen in different resolutions with the help of zooming in and zooming out (responsiveness check).	The layout remained responsive and no UI breakage occurred at different zoom levels and resolutions.	Layout should adjust responsively without breaking, overlapping, or hiding content at different zoom levels/resolutions.	Passed	
6	Testing the alignment of texts and other elements like icons, buttons, and profile photos on the homepage and search results page.	Text, icons, buttons, and profile images were properly aligned throughout the tested pages.	All text and elements should be properly aligned in a consistent, visually organized manner.	Passed	
7	Testing the colors of the fonts used for headings, body text, and call-to-action buttons.	Hyperlinks were displayed with consistent colors and appropriate hover/visited behavior.	Font colors should have sufficient contrast with the background and remain consistent with the site's theme.	Passed	
8	Testing the color of the hyperlinks (e.g., 'Forgot Password', 'Terms & Conditions', 'Sign In') across the site.	Profile images loaded clearly without pixelation or distortion.	Profile images should load with good clarity/resolution and without pixelation or distortion.	Passed	
9	Testing of the spelling in menu items, button labels, headings, and instructional text across the site.	No spelling or grammatical errors were found in the tested UI text.	Hyperlinks should use a distinct, consistent color that clearly differentiates them from regular text, with a visible hover/visited state.	Passed	
10	Testing UI elements like buttons, textboxes, checkboxes, radio buttons, dropdowns, and links on the registration and search pages.	All tested UI elements were visible, functional, and behaved as expected.	All UI elements should be functional, clearly visible, and behave as expected when interacted with.	Passed
